# RAPID4CLOUD REPORTS FOR ORACLE ERP CLOUD BROCHURE

Q3-Q4 2020

AUTOMATION FOR ORACLE® EBS & ORACLE® ERP CLOUD

# OVERVIEW

Keeping documentation up to date during a project is time consuming and usually inaccurate. Starting a new project where there is an existing Oracle Instance and no documentation is very difficult.

All of that changes with Report from [Rapid4Cloud](#), setup your connection to the Oracle instance, select the module(s) and business unit(s) needed and within a few minutes you will have an up to date setup listing in a BR100 style format in a downloadable **HTML** and **EXCEL** format.

The excel sheets can be used to update the Oracle instance with changes.

- 1. Financials
- 1.1. Define Common Applications Configuration for Financials
- 1.1.3. Define Enterprise Structures for Financials
- 1.1.3.2. Define Reference Data Sharing
- 1.1.3.2.1. Manage Reference Data Sets

Details of a report (HTML)

## ADD A REPORT

Provide the details of what instance, modules and business units that are needed.

Options also exist to filter data reported by the creation date or updated date.

These two dates allow you for example to show all the changes that occurred to an instance over the weekend.

**EXTRACT > ADD REPORT.**

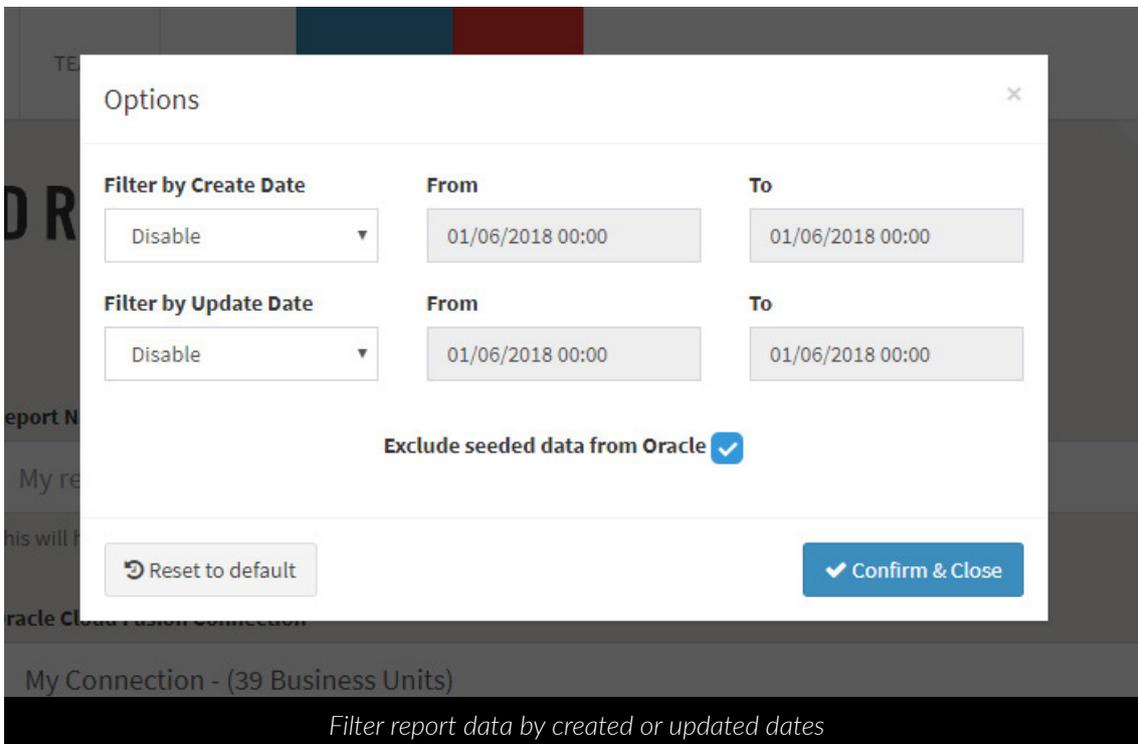

Options

Back to Reports list

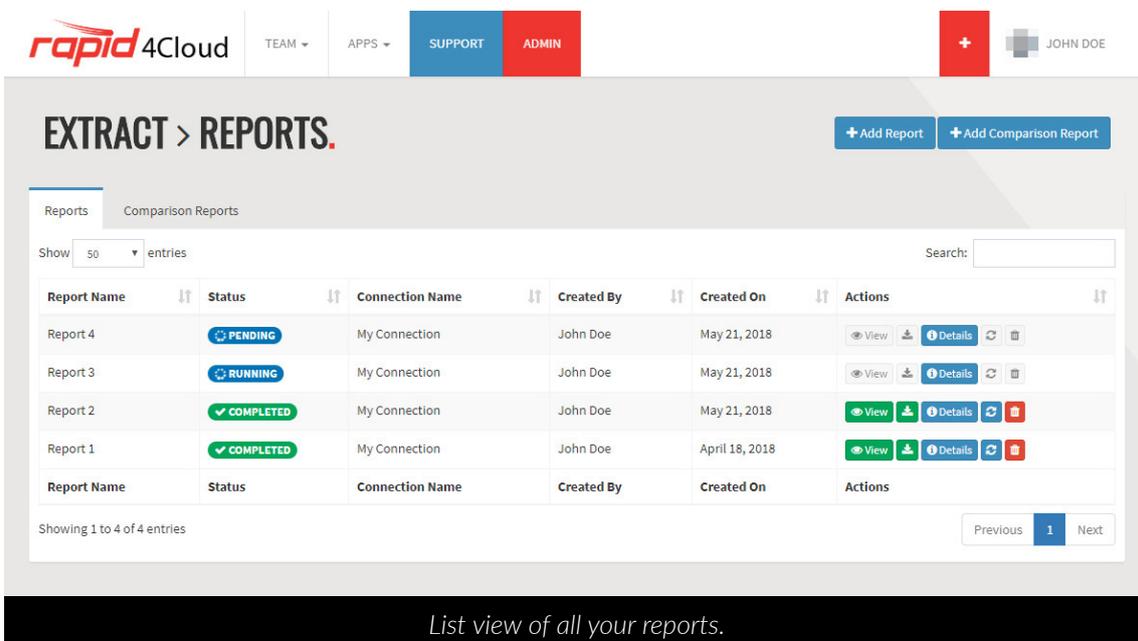

- Report Name**  
My report name  
This will help you to easily find your report from the list.
- Oracle Cloud Fusion Connection**  
My Connection - (39 Business Units)  
This is where the report will get the data. Create a new connection [here](#).
- Oracle Application Product(s)**  
Financials  
The Oracle Cloud Fusion Connection defines the Oracle Application Product available.
- Organization Structure**  
Global (Default)  
This is the highest level up to where the data will be extracted. More information [here](#).
- Business Unit(s)**  
Add All Clear All  
Can't find the business unit(s) you are looking for? Try to update the connection first.

Filter report data by created or updated dates

List view of all your reports.

## VIEW A REPORT

Your Oracle Setups report, or BR100, is ready. Click on “VIEW” to load it from your browser or “DOWNLOAD” to keep a local copy on your machine.

The report is stored on a **private storage disk** on the cloud, and the connection is **encrypted**.

Design of the report has been made by our Oracle consultants, making it clear and straight forward to read.

### Table of Contents

Expand branch. Collapse branch.

- ▼ 1. Financials
  - ▶ 1.1. Define Common Applications Configuration for Financials
  - ▶ 1.2. Define Common Financials Configuration
  - ▶ 1.3. Define Invoicing and Payments Configuration
  - ▶ 1.4. Define Expenses Configuration
  - ▶ 1.5. Define Fixed Assets Configuration
  - ▶ 1.6. Define Receivables Configuration
  - ▶ 1.7. Define Revenue Management
  - ▶ 1.8. Define Cash Management and Banking Configuration
  - ▶ 1.9. Define Collections
  - ▶ 1.10. Define and Maintain Intercompany Processing Rules

# COMPARISON REPORTS

Compares the reports from two instance and highlights the differences in color for quick location and resolution.

Very easy to select the **two reports for comparison**.

They do not need to be from the same instance or same time-frame, but they do need to be from the same release version.

**EXTRACT > ADD COMPARISON REPORT.**

[Back to Reports list](#)

- 1** **Comparison Report Name**  
My comparison report name  
This will help you to easily find your report from the list.
- 2** **Select Report 1**  
Report 1  
Only report with status COMPLETED will appear on this list.
- 3** **Select Report 2**  
Report 2  
Remember: you can only compare reports from the same Oracle Cloud version.
